

Bill 6006-B-102511

-Formation of a Student Government Ad Hoc Committee

Author: Senator Alison Wery

Section 1: The Problem

The Student Government office represents Student Government as much as the members do. The office is unorganized, unclear, and unprofessional, which is not the impression that speaks highly of the organization. To show the University of Toledo that Student Government is an established and professional organization then the office needs a great deal of improvement.

Section 2: The Solution

An ad hoc committee will be formed by volunteers from Student Government (executive, SJC, and senate) to improve the office. Meetings will be on Monday at 9pm where the volunteers will meet and discuss how the office should be enhanced.

Section 3: The Implementation

The ad hoc committee will have two-three weeks to form a plan to present to Student Government for approval.
